About BOQIN

Zhongshan Boqin Lighting Electric Appliance Co., LTD. is an artistic lighting enterprise that is full of individuality, fashion and creativity. It is located in Guzhen town, one of the lighting capitals of China.

Our company integrates R&D, design, production and sales, with a wide range of products, including: ceiling lamp, pendant lamp, table lamp, floor lamp, wall lamp. All of the products are designed to suit different occasions, like domestic use, hotel lighting, club lighting, villa and so on. Our products are sold to the markets in Europe, the Middle East, Southeast Asia and other markets, and have been highly praised by our customers. The products show its dignity in introverted elegance with the design concept of being simple, in-trend and artist, showing unique charm in the whole self-design series.

We, as a part of Boqin, have inherited the artistic essence of contemporary academic quality and classic characteristics, and is pursuing the spirit of perfect creation and would like to provide perfect products and services for all walks of the society, by beautifying our life with art.

STANDARDS AND MANUFACTURING Technology

Besides the design style formed by the accumulation of culture and art, our lighting enjoys a worldwide reputation for its exquisite workmanship and reliable quality. From design to material selection, from Mosaic to polishing, artisans are still using manual techniques, with the believe that only this kind of exquisite, delicate workmanship can show the true meaning of excellent quality. So Boqin lighting is of nobility and elegance, meanwhile, it also presents the sense of historical beauty handed down from generation to generation, which guarantees itself to be a masterpiece.

Exhibition hall introduction:

Starlight Alliance, a window in China that has become a world brand, covers an area of more than 1000 square meters and creates an image headquarters. It also means that we can not only provide good product quality, high-quality pre-sale, sale and after-sales service, but also let consumers directly connect with manufacturers, to meet consumers' various customized needs and regional service needs.

About manufacture Base

Located in one of the four lighting capitals in the world, Guzhen town, the lighting Capital of China, our base has a new plant area of more than 8000 square, with more than 100 enthusiastic employees. In the past 10 years, we have researched and developed 150 series (more than 1000 product types), characterizes by fully equipped in each stage of production, including design, modeling, engraving and further procession. In the recent 5 years of development of our base, we have provided excellent products and service to our customers, and we would like to cooperate with partners from all walk of life.

Pendant lamp

Besides being used as illumination, our pendant lamps also show an adornment effect. Our crystal clear chandeliers surely are the best choice for those who pursue the style of high-end luxury.

Wall lamp

The light of our wall lamp is quietly elegant and harmonious, can adorn the environment more elegantly, richly. It can also suit fashionable bedrooms perfectly.

Floor lamp

The unique design and modeling have been such a hit among different fields of people, especially in the area of modern minimalist home design.

Table lamp

With the feature of energy-saving, the bright illumination range of our table lamps is relatively smaller and more concentrated in a specific range of area, giving us great convenience of reading and study.
